

DON'T DO NOTHING!

“You knew they’d be here waiting for me. You’ve heard her calling me names, threatening me...”

Bullying is not ok.

Step up and call it out

Say something and support a friend

Tell someone who can help

Because the **behaviour you ignore,**
is the **behaviour you accept!**

Only do something if safe to do so.

Being an **active bystander** can help stop bullying.

If a situation escalates, call for help from an adult or teacher
