

DON'T DO NOTHING!

If you think that someone could be involved in, or a victim of a crime that could cause harm or distress, please:

Step up and call it out

Say something and support a friend

Tell someone who can help

Because the **behaviour you ignore,**
is the **behaviour you accept!**

Only do something if safe to do so.

Being an **active bystander** can help prevent harm from happening.

In an emergency, call 999.
